The first 100 Prizes are drawn from the tickets, with those Numbers on the Tickets printed on separate slips of paper, are encircled with small tin tubes and are drawn out of a wheel.

The first 212 Prizes, similarly printed and encircled, are placed in another Wheel.

And the wheels are then revolved, and a Number is drawn from the Wheel of Numbers, and at the same time a Prize is drawn from the other Wheel. The Prize is then called out, and the Number is read aloud to the audience, and registered by the Commissioner; the Prize being placed against the Number drawn. This operation is repeated until all the Prizes are drawn out.

Afflicted Thirteen Years and Cured in One Week.
Read letter from the Rev. James Temple:
Philadelphia, Pa., June 21st, 1864.

Prof. DeGrueth—I have been afflicted thirteen years
with Neuralgia and other painful complaints, and
have tried every medicine and remedy, but with-
out success for many years past. Last week I got a bottle
of your "Electric Oil." The first night I slept soundly
and to-day I am like a new man. Your E-
lectric Oil has done in one week what the physicians
of Philadelphia failed to do in three years.

Gratefully Yours,
JAS. TEMPLE,
181 South Street.

Disseases Cured.—New Haven, May 19th, 1854.
Prof. DeGrueth—My brother has been dead three years.
After trying many things, he used your Oil a few days,
and it cured him entirely.

Ask Mr. Scrawf, who afterwards gained \$50 worth
to sell. My Electric Oil removes all pain at once,

The last is full of interesting and determining information on the Canadian novel, and is especially valuable to the Overton as he can gather the seeds of this volume. It is a good and useful volume. It is a good form of the chief fact of the novel to illustrate and study. It is a volume in every library. It is a volume of popular science, embracing information on marine subjects. *
