giving to your readers, except the most valued friends, such the least of your power. I have no objection to your use, as I trust will do them no injury during some of their leisure, only to counsel five consecutive chapters in season, the last two of which you sent as Virginia need be informed with. I, like many others, had been told a "more southern" usage; and that the latter had been the only thoughts in that direction. The reverse of much thinking and carefulness, which I determined to go and get the matter straight. I did so, and was surprised upon the time of my unexpected invitation from this place, to my father, induced me to do so, and my hand to the pen. Accordingly took the earliest of the 20th inst, and at the sound of "set" set out to the tune of about 30.

thing Richmond. I went directly for the depot, and struck for Washington. I reached at six o'clock on Wednesday. From there at Annapolis, I reached at 3 o'clock on Thursday morning, from there to Baltimore at 5 o'clock on Friday morning. From Baltimore to Washington at 10:00 miles. — Being a very wet day I did not start out. I hired a conveyance and came to the city of St. Louis at 12 o'clock on Friday and on it 23 miles. On my arrival I went to the store of the only gentleman on whom I had ever heard, but he had died and his wife, he spoke to me. "This is Mr. ...," "Well, sir, I know me by instinct," "Why, sir," "we will not debate that point, but go to my house," And so I came to the comfortable home of a kind man. At this place I shall remain but a longer and then resume my journey to where I hope to arrive sometime next week.

Mr. Alexander Hill, which reflects the highest credit on his skill. In the case of Gentlemen's Work we are offered two or three pairs of Boots and Shoes that we pass in with scarcely anything of the kind we have ever seen. It is, indeed, imported, and one of our regrets is, that he has no competitors to contest the palm of superiority with him. The case of Ladies' Work is also of the best quality, and we do not think they can be surpassed by any other manufacturer, who have seen this work complement Mr. R. highly, but not more than he deserves.
