PETRIMIN'S REVELATIONS. McCinro's Platform Uport.

Mr. B. Rusti PETRIKEN, use of the so our. D. RUBH PERSIKEN, use of the op-nition candidates for Steet Logislature Lysoming and Clinton sounties, having servelled with some of his late political positos, is making a clean breast of, the namer in which the State was awindled associates, is muching a clean breast of the manner in which the State was awindled out of her Canals by that ratical concern, the Sunbury and Eric Railroad, and its sergupt speculators, that have taken these gestleams all abest. Her Patriken was one of the active managers in procuring the posings of the Sunbury and Krie bill through the Lacialature, and was, consequently, esquitant of all the plots, hargains, wire-pallings and arrangements by which that saheme was necomplished. His position enabled him to obtain correct knowledge of all the doings hidden from the public opt. He awell pasted up so to here much money certain members reconved for their votes, and why presents were given to others. This is the business in which Col. McClure pinyed nuch a conspienous part and for which the Service of Silver Plate was obtained. In a letter published in the Inniste Sentinel, purporting to some from Philadelphia, though mailed to Chambersburg, and set up in type from manuscript in the handwriting of Col. A. K. McClure, and which fact we are prepared to prove, he puffe himself for his agency in the nafarions hasiness after the K. McClars, and which fact we are prepared to prove, he pulls himself for his against in the saferious business after the following fashion:— "It (the Silver Wore) is a testimental from the friends of the sale of the Public Works TO COL. A. McCLURE [It will be observed that he states in his own letter that the present was to himself which makes him guildening bride,] for his able and indefatigable championship of that great reform in the late Legislature, and more will deap that the right tribute is well deserved. During the whole of the prowill deay that the sich tribute is well deserved. During the whole of the protected and bitter struggle in the House to sever the Counts from the State, and State management—in every emergency Col. McCLURR come to the recent?" This unfertances letter, from which we make this extract, fixes McClure's agency in the matter beyond the possibility of his rhaffing out of it as he will be glad to do at no very diseast day. It will not be long buffers the public will get an inside view of the mysteries of this ewindle and the principal sators in it.

With Mr. Prerikea's motives in making with Mr. Persians a mustre in manife, these disclosures we have nothing to do. In his pub-lished statement, which we amnex for the baseds of the planetured public in general, and Col. The Delaware Division, a Casal which under State menograment cleared siz per cent. per summe on the sum of \$4,000,000, was sold for \$1,775,000, \$75,000 in head, \$100,000 in the stock of the Company oreased, \$400,000 and onto the sum of \$40,000 and \$1,200,000 in promises to pay twenty years off: Before this sale was made, other parties offered \$2,000,000, and no dushiff should receive, and the other fourth of
the surplus the Sunbury and Eric keep a

If this position be correct, then the only
may the Sunbury and Eric Refliced sould
be deally sell was by public sele—and an
officer of the Banbury and Eric could become a purchaser. Surely in the ordinary
affairs of life, the Law holds that a trust

equal force that a Trustee enemat be a
purchaser at his own mic, hence them also
of the smalls is veid and the recedy is to

It is no to the truth or fakity of the
charges made that enquiry is designed to
be made in the La islature. Then the
parties who denounce use can have the
privilege of doing it in a legal menner,
and at the sense time have their lijk hall
lowed by kissing the Gospel of God, if they
have belief in Him.

Then an approximation to truth can be
reached or a multitude of souls be demand
for false swearing. Then it will not be

systeming influence of an oath.

Fellow sittiens, if there is nothing wrong
why are those people accused, so uneasy,
Because they dread your wrath, when you

In this leagity I think it will be made manifest by proof, that the Canala were sold as \$2,000,000 kes then they could have been acid for, the same kind of payment being received—that in each raise the Birectors and officers of the Railroad were parties perchasing—that all the sales were made in the abort period of one mouth from the time they were conveyed to the Railroad, in a secret manner, without socioe of when they would be received, that not withsteading this secret manner of sele, much larger sums were bid by other parties, hefpre the present possesors had consummated their pretended title under the law.

To illustrate, I believe an such an investigation it will be preven, that the West Branch and Sucquehanna Canal was sold for \$500,000, in promises payable twenty years hesses, but before its consummation under the law \$750,000 was offered for that part between North-tunberland and Danacan Laland, a shout one half,—and such witnesses as Judge Jordan and Wn. ### A LETTER TO -

BY A COQUETTE.

A sweet friead of mine, who is blied, once pat in my hand a little golden locket, saying, half-proudly and half-timidly: "This is the face of my beloved; look on it, for I cannot, and tell me if he kooke to year se suble, so good, so beautiful as he seems to me." I looked upon the pioteried resemblance of the dol in that blind girl's heart, and my own heart shaddered—though I had not the courage to break the image in the temple of her worship by a word of the unkined truth. With a half-lie, coined in pity, I gave her back her treasure, leaving it to fime, the great loou-colast, to destroy as he might. So, ofter-times, I think of that moment of painful sympathy, when I am offering up some incomes of the soul before an idol which I fear has been "made with hands"—the hands of my imagination—and wonder if the angels do not companisonate none delimins of my swa, and compassionated the infatuation of that dear blind girl, to whom it was not given to read that index to the humin heart—the face of man! Yet, if our love be not delusion—or if it be!—What then? We have general all, for in the next existence, when we shall see all things perfectly, the truth must be revealed to us, and we enture begin etersity with the spirit of our earthy thoise, or we find ourselves weldealy alooe to the midst of the Universe, and all our faith in the past erambled to the dust with the clay we have fermakes. Alas! there is a darker blindeness than the deprivation of estoal vision—the blindeness of the soul.

There are some days in my life when it seems to me that I have lived a thousand years; when the incidents of my past existences seem so far apart, and dim, and strange, and servorful, that if see if the great heart of Homosily throbbed through mine—or as though my heart was in every one's breast. We were besten in this somety last fall, not because we had not steength seconds to have carried our ticket, but because several hundred of our voters stayed at home. If we had polled the same vote we pelled in 1856, our whole ticket would have been closted. If we poll as many votes next week as we did in 1856, we shall triumph. We ought to be able to do this. There is just one thing that stands in ear way, and that is the disposition sometimes shewn by some of our s in ear way, and that is, the dispo-sometimes shown by some of our is, to stay at home and let the election he care of itself. Here and there a emocrat is found mying to himself, Well, I bulieve I won't go to the election day—my vote won't make much differ-ce anyway." Now this may do where ere is a Democratic majority of several there is a Nemocratic majority of several thousand, though even there every man rought to ture out, especially when there is a State ticket in the field. But no Demo-crat should talk not act thus in a close county like oars. ## Paying the State Debt.

Among all the claims set up for Col. CERTE, there is none more abourd than that which attributes to him a large share of credit for the reduction of State debt recently effected. A perfectly imperial inquirer would certainly find nothing in career to entitle him to the apthe ap-We do e or gratitude of the people. Very what he did in the Legislation alle for special commendation not know what he did in the Legislature that eath for special commendation from the public. He took up a good deal of time making speeches which are not destined to be handed down to pasterity slong with the speeches of Weneren and ULAY. But as for the merful legislation that he influenced, we have so account of it at present and we never expect to get as account of it.

The republicans of Adams county made it an issue upon the Democratic Represen-tative from that county, when he was up for re-election last fall, that he had taken the \$200 extra which Col. McCliums in The Adaus Representative had not voted for the extra pay, but he took it after Col. McCLURE's energetic efforts had carried it; and for taking it, the Republicana of

If a Democratic Representative merited defeat for taking the \$200 axtra along with the rest of the members, ought not Col McCLURK to receive a withering rabule for speaking and roting for the bill and taking the mones?

Laking the money?

We do not see how any man who is anxious to reduce the State debt can rote for Col. McCLURR, with a full knowledge that by his greed for extra pay he deprived the public tressury of over tweaty six thousand dollars that would otherwise have tanument dollars that would otherwise have gone into the sinking fund. Still less do we see how any Adams county Republican who joined in the cry against Mr. WILL for taking the money after it had been vo-ted to him by Col. McClunz and others, oan now support the Republican candidate for Senator, the prime mover and file lead-er in that foray on the people's treasury— the great champion of EXTRA PAY at the appreheusions that the State would not be able to meet all her engages

A party that would desiare its adherence to certain principles in order to obtain suscess, and afterward abandon those prin-ciples, is unworthy of confidence and ought to be rebaked and repudiased by the pao-nla.

But the charge that the Democrati-party has abandoned the principles is pro-fessed in 1856 is untrue. Those member of our party who have given ear to the rale have how a democratic d. Judge Doug Las and his followers have purposely as erred to Classinast s time of he pen to journish it in a

We do not deny their right to abandon the principles they perfecsed in 1856, but we object to their attempt to convict the Democratic perty of the crime of which they themselves have been guilty. There is no reason why any man who wished with us in 1836 abould not vote with us now. We stand this day just where we stood three years ago—on the very ground we occupied when particule and conservative men of all parties rallied under our banner and fought the good fight of the Constitution and the Union. The political sky is again overcast. The battle of 1856 must be fought over again Standing as we do upon the very ground we occupied in that coctest, shall we not have the support of all who then co-operlated with us? done in Berke county. The suspicion is rife that the leaders have shanged the programme. The bonest voters of the opposition want to know what they are voting for. They want to know whether COGRAM, KEIM and MOCLURE stand on the FREMOUT platform of 1856. There has been so much chapting amoust—their has been so much changing among their leaders, that they don't know w find them. They dun't know whether they all stand where the whele party stood in 1856, or whether Comman is for Conall stand where the whole perty stood in 1856, or whether COORMAN is for Con-grammenal sovereignty, KRIM for popular sovereignty and McCLURE for the soverwer of the squatters.
