The poetry was completely taken out of his was completely taken out of his whining speech by tlox, of Ohio, who, as well made a most gallant fight out this occasion, emiting his oppo-ments "hip and thigh," and putting them on the defensive at every point. He saked Mr. Coffax why it was that when Mr. Collax why it was that when Mr. Collax a Republican mem-ber from Kansas, offered, in the last Congress, a series of resolutions proriding for a commation of hostilities confederacy, he did not move for his expulsion. The demagogue refused to answer—he was mute as a statute which proves conclusively that he was governed by the basest partisan considerations. The conduct of Mr. was governed by the basest partisan considerations. The conduct of Mr. Coffax, in leaving the high position of the Speaker's chair, and descending to the arena of the floor, to become the accuser and the prosecutor of a fellow-member, stamps fellow-member, stamps him as a low political demagogue, the odium of which will attach to his name to the steet day of his life.

Mr. Clay once descended from the chair to the floor of the se under circumstances somewhat similar: but the course of his course to that of Mr. Colfax marks the dif ence between a statesman and a se in the last war with Grant in, when some of the New England Pederallets were plotting for the dimonstion of the Union, Josiah Quinmehnestis member of srom e and infinence, had made a vio ent anti-war and But what did British speech. " It is a sad thing to see a nation die," said an eminent member of ton-grees a short time ago, in a speech of surpassing eloquence on the prasent unhappy condition of the country.— We are forcibly reminded of this truth when we reflect on the manner in which the recent election, on the question of a Constitutional Convention of a Constitutional Convention in our sister State of Maryland. was conducted. ss conducted. And this is the elec-tion over the result of which our neighbor of the Republicy rejoices as loadly in his hast issue, rating the spread eagle over the announcement; Yes it is a and this time, and

There is a deep scnae of insecurity beginning to percade the mind-of the community with regard to the protecon of their persons and property. tion of their persons and property— Lawlessness seems to greevall every-where, in high as well as in low places. Those charged with the high and re-sponsible duties of exacuting the laws and administering justles with an im-parital hand, have been found sharne-cally despited in the performance of their duties. That strict impartiality and issection interrity in the adminiand inflexible integrity in t e edmir istration of the laws to istration of the iswa to write we were formarly accustomed, is now no more to be seen. Political prejudies and partisan bigotry are the infinonces that control the actions and decisions of many of our public officers; an to ham yo our plante omners; and the fact that a man belongs to this or that party, has much more to do with his obtaining justice at the hands of the executors of the law, than the merits of his case.

Is it any wonder that the people in it any wonder that the people are growing neasy notes this sense of inscernity of their property, repatation and lives? Is it any wonder that they are beginning to inquire whether there is any longer any hope left for protection, save in their own ability to defend themselves? This is a serious question, involving the descret interests and rights of every man, woman and child in the com man, woman and child in the commu-nity, and should engage the serious attention of every well-wisher of so-ciety. We may, perhaps, have more to say on this subject in our negt.

THE great Abelition Orator, Wes dell Phillips is a prime favorite at the White House, and no one receives as marked attention from "the govern marked attention from "the govern meat" and the "governments" sittle littee, as he; yet he has been labering for years to effect a dissolution of the Union, and bossts of it too. The curreacy is gradually turning into worthers rays. Not an arra do they year raise to save it.— If they had but done the duty thuy were put to do, the credit of the Gor-erament would still be resting on its old foundations. They have neither done it, nor made any rational effort to do it. It is not misfortune, but guilt, that rests upon them; not

guilt, that rests upon them; not failure, simply, but faithlessness. It is astonishing, it is astoneding, that the House, after this long and fagrant neglect of duty, should turn upon one of its members in this ferce fashion; for encouraging the enemy by words by words which wer made of air, and which if they had been let alone, would have straight-way vanished into air. It is the wild-ness of the fireman who stands motioniess while the fames are unther ering beadway, and falls foul of the who declares that the fire will not be subdued. It is the inection of these so-called loyal servants of the people that is aiding the rebellion ten thousand times more than the a cen trousant twee more than the so-called disloyal speeches of the mal-contents of the House. Not words, but acts, are to decide this war. Un-faithfulness in respect to the former shrinks into insignificance; it is absolutely nothing, when measured against that other unfaithfulness in act, of which this House is every day making itself guilty. What heliobore have they been drinking in Washington that has dragged their old perceptions? Are we to be told that American liberty is of the bastard type these men would make it?
