we say! What do these bepaupled, kid glored geetry know of the real "mantiment of the army." As first say they know of its hardships and privations. What interest have they faithfully to represent that sentiment, if they do know what it is? Nows, so, long as three is a chance of promotion, plenty of 'green backs," and a july good time ahand. And it the opinions of these officers should not coincide with the abolition pregramme, what would be the consequences of a public expression of them? Disminal from the expression of them? In the privates and in one or two instances, when called apon, they very proparly roted them down. It to these privates, genulessen of the Republican party, if you are sincre in jour desir to obtain the real "sectioness of the army." And parhaps they will tell you they do not like the idea of carrying a mushet and being compiled to "salue" some high back "Nigger" with shoulder straps on. They will tell you they enlisted from unsellad, particular more than the apprenancy of the Constitution and the laws, and to restore the Union of their fathers, and don't cars a fig fory one rite. Niggers," And they will very probably runnind you that had yob been as faitfull to your duties as clistens, as they have been amount the same out of their just does not intifull to your duties as clistens, as they have been amount the work of the laws and to restore the Union of their fathers, and don't cars a fig fory one rite. Niggers," And they will very probably runnind you that had yob been as faitfull to your duties as clistens, as they have been amount the condition of their just does and intringing continually to remove the generals when they confided in and loved, the war might have been over by this time. Many of these men will be home with it in exist full, and the result of the selection that to the army."

The Abolitionists are crying for 'a nited North.' Let the national administration answer the demand. It is too such to sak that the people should entirely the transmitted of medical transmits.
