Staunton Speciator.

JOS. A. WADDELL, L. WADDELL, Jr., RICHARD MAUSY,

MISCELLAN

Were the estimated intellectual in the above present and formation of the contract of the cont

are a five things we desire to say to correspondents. In the first place, never send us anything just to fill up," as we are never in want of 'copy;" and unless a writer believes that it communication will be interesting to the public he had better on send it to the press. Secondly, he brief, making the letter or article as short an possible. Thirdly, do not write for the new-papers moral escays on "Trath," "Sincerity" or any of the virtues. Fourthly, take special pairs to have the writing clear and distinct, don't write on both sides of a sheet, begin every sen tensor with a supital letter; be sure that that spalling and grammer are correct, and never ingue that this words "crosse heats," will atom for lingthly she hirpershy had bed grammar and spalling. Lestly, do not take offence if your communication does not appear, but rest asset of the rest word of the could do so consistently with his do to the could do the could do the city

communication does not appear, but rest seems that every eiler would grainly overy contained in the twee sides were to sometimate of the contained in the annexed paragraph from the Captier and Engineer of Thursday:

The Minury Question.

We direct a considerable portion of our space the week to an extract from the speech of Panedry E. Grattan, Eng., delivered in the (N. 18.) Produptance General Assembly at Clare in the control of the Captier Captier Scientific and none were present in paramance of the advertisated out of the Captier Scientific and none were present in paramance of the advertisated out of the Captier Scientific and none were present in paramance of the advertisated out of the Captier Scientific and the control of the Captier Scientific and none were present in paramance of the advertisated out of the Captier Scientific and the control of the Captier Scientific and none were present in paramance of the advertisated out of the Captier Scientific and the control of the Captier Scientific and the Captier Scientific and the Captier Scientific and the control of the Captier Scientific and the co one of the abbest and inacet satisfactory expositions of the subject we large aver accu, and will
be small with general interest and profit. It
to pairs of the subject we large aver accu, and will
to raise the first American flag after the
to small with general interest and profit. It
to pairs of Churchauco. Captain lance claimed
the subjects were stated by the constitute the
langua stagletty of our people, notwithstanding
flav entrements may heep up a leader claimor.

a uses of so much intelligence and geoiseral informathon as Mr. Collers, elsevial dil intous great and
errors. There were as weral other gentlemen in
tyginia who entertained and "expresses" in the
printing and prodicted git in the most capital
interium, that it would prove a Pandone's box
out of which would fine annumbered lits to the
whole country, and to the South particularly—
A mong others who entertained and expressed
these opinions may be named the late lamested
Tyre Maupis, then editor of the Mirroganneers
Mr. The N. K. Gillper, then editor of
the Frynia Messanger, Oyour own towas, and
the editor of at least one other poper—an
tit "the most entirely univers and uncalled for
measure ever introduced into our National
Councils—a measure fraught with more danger
to the perpetuity of our glorious Union than a
sytting the views freed incarnate could have inrested. It is one of those things that have not
a single redeeming trait about them—not a particle of pullisiting or reasonable excuse to stand
apon." ticle of paniating or resonance cau-iupon."

The Herrisonbury Espablican was equally emphatic in the condemnation of the whole scheme, denouncing it as a fraud and a swindie, and predicting that it aday would come when the South would rue the steps abe was then tak-ing and monra over it in sackcloth and scheme. Indeed, to far as I know and believe, the sless.

the Stath were find. Let us Notrogas all the board were received to the Kansara Market and the Stath was as the first the stath were so will be stath the stath was as the state of the Kansara Market Market and the state of the Kansara Market Market Market at the first the Stath was expected, but the property of the state of the
