The Governor should not interfere with the Congressman. As he has been and is still futtering on Gubernatorial elover, he should not desire to prevent Col. Baidwin from grazing a little while longer on Congressional shortgrass.

The Governor should restrain his inordinate appetite. We apprehend that it is already morbid.

The Editor does not seem to be conscias of the fact that when he impeaches the motives of those who, at the time
of Lincoln's proclamation for 75,000
men, to use the language of the "Vindicator," "suddenly changed from love

We do not know that any one feels any particular desire to know the sentiments entertained by the Editor of the "Yindicastor" before that "sudden change" occurred in this section, but that he may have an opportunity to clear his skirts of sil tains to f antecedent Unionism, we would ask him to let the public know whether or not he was an original somewhat it is not a second for the "sudden change" which coceanned in the sentiments of his candidate for Congress.

The New York "World" acknowledgas that the loss of the Yankess in the late battles amounts to at least fitteen thousand, and peacibly more. It is a well ascortained fact that a large majority of the killed and wounded of the enemy were Germae and Irishasen, whilst a unajority of the prisoners taken were Yankees. This fact shows that the pricapal fighting done by the enemy is done by Germans and Irishasen. How long will these cleduded foreigners suffer the Yankees to make cat's paws of them? How long will they suffer them of the country of the superior of the state of the slaughter? The Yankees are of the dot of the touch of Southern steel and make a breastwork of foreigners. They in-
