PRESIDENT'S MESSAGE.

WASHINGTON, DECEMBER 8, 1857.

PRESIDENT'S MESSAGE.

PORTURISHED BY ADDITIONAL DIFFERS 8, 1889 is a second of the positive concerned to a personal positive contribution of the second color in the property of the production of the positive contribution of the positive cont

remail addity to withdraw from the Territory, and observed and providing and the policy detail, including interest and promising, thereby in the policy detail, including interest and promising, thereby in the policy detail, including interest and promising, thereby in the policy detail, including interest and promising, thereby in the policy details, and the policy details, and the policy details, and the property of the constitution and have within in a line of seed, in the execution of the supermany of the constitution and have within an amiliary or for the right file interior, the religious opinions of the Mormans, as long and registration of the religious opinions of the Mormans, and articles are an excellent to the transport of the religious opinions of the Mormans, as long are asset of seed, in the execution of the seed of seed of the religious opinions of the Mormans, as long are asset of seed of the religious opinions of the Mormans, as long are asset of seed of the religious opinions of the Mormans, as long as the religious opinions of the Mormans, as long as the religious opinions of the Mormans, as long as the religious opinions of the Mormans, as long as the religious opinions of the Mormans, as long as the religious opinions of the Mormans, as long as the religious opinions of the Mormans, as long as the religious opinions of the Mormans, as long as the religious opinions of the Mormans as a long as the religious opinions of the Mormans as a long as the religious opinions of the Mormans as a long as the religious opinions of the Mormans as a long as the religious opinions of the Mormans as a long as the religious opinions of the Mormans as a long as a lon and generate and other federal convertes that and and sent with those as millitary force for their profession, and is and is not sent the sent their convertes the sent their profession, and is not a many and considered their control of the federal cont

complished in regard to some of these tribes, while others and the state of the sear feeling segals. He has half in a store of previous for three years, which, in case of necessity, as he informed Major Van Vilet, he will concern, and the state of the measurements and tell distance to all the major of the distance of the control of the state of the measurements and tell distance to all the major is the beasting, but yet to view governments will lightly estimate the effects which may be inspired by such placensied farathems exists among the Mormons in that. This is the first releibles which has existed in our Territories; and humanity theft requires that we should put it down in such a manner that it shall be the last. To trife with it would be to encourage it and to retain it formitable. We ought to encourage it and to retain it formitable. We ought to encourage it and to retain it formitable. We ought to encourage it and to retain the weare their flieds, not their encourage it and to retain the state of the wear their flieds, not their encourage it and to retain the weare their flieds, not their encourage, according to the educate of the Wer Department, to raise four additional regiments: and this I carried deposition in the eye-serie of the country I am sorry to be obliged to recommend as the formitable to recommend as the property of the condition and laws over the Territory of Usab.

I recommend to Uncurrent the establishment of a territorial government over Arisons. Incorporating with it such positions of New Mexicosa they may deen expedient. I need not recommend to the control of the recommendation. We are bound to protect the lives and the property of our citizen fainballing africance and maintaining the answeringthy of the condition and laws over the Territory of our citizen fainballing africance and the property of our citizen fainballing africance and maintaining the answering to the formitable and it repulls to the property of our citizen fainballing africance and the property of our citizen fainball

away portions of them for the purpose of increasing the proves at either end of these rooms as to enable it to blocked the remainder, yet, considering the great template proves at either end of these rooms. After the provesting money from a three provides on the origin of the government congruent may be remainder to the provides of proportions of the construction of our limits the provides and the construction of our provides and the construction of the construction of our limits the public lands. setherity should be given to samply any lampinary, edniciancy by the issue of a limited amount of treasary notes, of
a superoval, and I accordingly recommend the pamage of
such a law.

As stated in the report of the Secretary, the tariff of
March ?, 1955, has been in operation for an other
period of time, and under circumpance a revenue measure,
that I should report I say incorporate the present, to moderate its revision.

I transmit here with the reports made to me by the Sectreatries of War and of the Navy, of the Interior and of
the Paskmarter General. They all contain radiable and injection information and angestions which I commend
to the favorable consideration of Congress.

I have always recommended that the Secteary of War
presents alrong crossons proving this increase of the army,
under existing circumstances, to be indispensable.

I would call the special attention of Congress to the
recommendation of the Secteary of the Xay in favor of
the constriction of ten small war steament of light I
draught: For some years the government has been
obliged on neary occasions to hire such steamers from the
dividuals to supply the present in the native which can enter any of the hardways. For some years the government has
dividualed to supply the pression in the native shear of the
contribution of the first in the steamers from the
dividuals to supply the pression in the hardway which can
morning the state of the steamers of the constriction of the constriction of the constriction of the second of the constriction
and the state of their contribution of the contribution of the second of the constriction
is not one of the state of the contribution of the second of the constriction
and the state of the contribution of the contribution of the second of the constriction
where we are a feetile as a much large revealed, and heavy guns would be formidable in cosast deferon. The rest of their contribution of the second of the construction
where we maintain a syndrod, and three of four should be
well provou as effectiv

which we name cost of their construction would not account also million stars hundred thousand dollars, or \$230,000 each.

"The report of the Secretary of the Interior is worthy of grave consideration. It treats of the numerous, important, and diversified branches of domestic administration intrusted to him by law. Among these the most prominent are the public lands and our relations with the Incline.

done was the pulse and a series and discovered and a confidence of the discovered and a confidence of the republic has been insported as experience pointed the way, and gradually adapted to the growth and rettlement of our western blates and Territories. It has worked well in practice. Already thirteen States and seen Territories have been carried out of these lands, and still more than a thousand millions of acro remain unsold. What is boundless prospect this presents to our country of future prosperity and sower!

millions of acrea remain mission. Wears a commune preserve this presents to our country of future prosperity and power?

We have heretofore disposed of 363,862,464 acres of the public land.

Whilst the public hands as a source of revenue are of great importance, their importance is far greater as furnishing homes for a hardy and independent race of honest and infusations citizens, who desire to satisface and cutificate the satisface of the sati

everyal pears peat/Str th in the portion of the means of the training and extending the operations. Their regal provides and extending the operations. Their regal provides and training the statement of the number of post distinct, and that beingth of pear coales, commercing to the commercial provides in 1837, 11,177, in 1847, 1,184, and in 1837 they commercially commercially the pears of the commercial pears of

Massed, hearing a set jacreas; of 1,821. The postanasters of 380 offices are appointed by the Presidents.

386 offices are appointed by the Presidents, and the length of post roads in 1837 was 105,325 miles; in 1837, 141,421 miles; in 1897 133,848 miles; and in the year 1837 fibers are 341,061 miles of post road, including 24,330 miles of railroad, on which the male are transported.

cleening 24,300 miles of railroad, on which the mails are transported.

The expenditures of the department for the fineal year conding on the 30th June, 1537, as adjusted by the Auditor, assessment to the June, 1537, as adjusted by the Auditor, assessment to the Auditor, assessment to the Auditor, assessment to the rest of the department on the 1st July, 1134, the sum of \$2185,592; the grows revenue of the veer, including the annual allowances for the transportation for fire mail tendent, produced \$8, 483, 481; and the remainader was supplied by the appropriation from the treasury of \$2,340,600; granted by the set of Congress approved August 18, 1858, and by the aspropriation of \$464,883 and by the act of March, 3, 1851, leaving \$232,173 to to the carried to many part of the property of the property of the property of the property of the department in relation to the outshilshment of the overland small route from the Massingly tive to the Prancisco, California. The route was selected with my full concurrence, as the one, in my judgment, best calculated to attain the important objects contemplated by Congress.

The late disastrous monetary revealed many have one good effect should it cause both the bovernment and the committee of the control of th

and the well-established policy of the country, and little time was then required by the President for their examination.

For my own part, I have deliberately determined that I shall approve no bill which I have not extamined, and it will be a case of extreme and most ungent necessity which shall ever induce me to depart from this rule. I therefore respectively and the treatment of the shall ever induce me to depart from this rule. I therefore respectively used to the resident at least two days persons to the adjournment of each sension within which no new bill shall be presented to him for approval. Under the existing joint rule one day is allowed; but this rule has been hitherto so constantly suspended in practice, that important tills continue to be presented to him up till the very last moments of the session. In a large fingionity of cases no great public inconvenience can after from the constitution to the session. In a large fingionity of cases no great public inconvenience can after from the constitution that the shall be presented to the President within the last ten days of the season he is not required to return it, either with an approval or with a veto, "in which case it shall not be a law." It may then lie ovet and be taken up and passed at the next season. Great inconvenience of Congress, the expense and inconvenience of a called consideration the interests of the people of life Diatrict. Without a representative on the foor of Ongress, the capense and inconvenience of a called consideration the interests of the people of life Diatrict. Without a representative on the foor of Ongress, the capense and inconvenience of a called consideration the interests of the people of life Diatrict. Without a representative on the foor of Ongress, the capense and reconvenience of a called consideration the interests of the people of life Diatrict. Without a representative on the foor of Ongress, the capense and reconvenience of a called consideration the foor of ongress, the capense and reconvenience of a call
