To Conservative Men-In the hour of triumph we need most of all to guard curselves. When the Roeral was borne in process through the City of the Seven Hills, and greeted with the splender of a Roman triumph decread by the Sonate, there was a slave standing in his chariot, constantly remaiding him of his mortality.

Foiled in their purpose to smother the question sice of the people by note of tyranoyouch replies: as hever were heard of even under the most despotic governments, the Abolition-ists have reserted to their old and favor-They had than suspected that the voters of Penasylvanie would turn them out from the positions they have dishonored, and, hence, had quietly prepared, in advance, a sobene by which they foully hoped to thwart the irresistible will of the masses. a sobeme by which Whilst the Democrats and other Consti-tution loving and law-abiding citizens were quietly attending to the canvass at these reckless political gamblers were busily engaged in sending tie ets election papers and instructions to their hangers on, their sutlers, pay-masters and camp followers, in the army, in order seeretly to obtain their vote among the sol And, now, a few scattering ballots baving been cast by the military, in accordance with their programme, these votes are paraded their newspapers as a in regard to the political tion of the army, and where the legal Southren rebellion be "crush vote has been close for Congress and the State Lagislature, it is threatened that the votes polled at this unauthorized, un constitutional and fraudulent military MORE GLORIOUS NEWS! election, are to be counted for the purpose of reversing the decision of the people.—

As to the capital which the forlors and miscrable Abolition press is trying to make of the az parte military vote, weasy let them make the most of it. Every in telligent men will at once detect the fim-siness of the article. We need but ask these gentlemen, was there any notice given by any person, authorized or unauthorized, one week prior to the election that an army vote was to be taken? Did Gov. Were there my printed tickets or election papers, or instructions how to vote, sent to the army by the representatives of any other party than the Abolitionists? All these questions must be answered in the negative. Hence it is did not vote. True, a few of them week their such tickels and voted, but the great mass of the Democratic soldiers, knowing that they were constitutionally debarred for the time being from exercising the elective franchise, preferred to abida the laws and to respect the decision of the Supreme Court of their State, and there fore refrained from participating in the This has ranged with an auton congret on more view with secondary.
